

# SystemVerilog C/C++ Committee

Status as of 12/04/02

Swapnajit Mitra  
Chair  
SGI

Ghassan Khoory  
Co-Chair  
Synopsys

# SV-CC

- Focus
  - DirectC API
  - Assertion API
  - Coverage API

# SV-CC

- Progress made since the last face-to-face meeting
  - Donations for the above APIs have been accepted.
  - Discussion has started on several issues on DirectC and Assertion.
  - Weekly (and sometimes twice per week) meetings rather than the bi-weekly schedule to accommodate more discussions.
  - Two face-to-face meetings held in San Jose on 11/07/02 and 12/03/02.

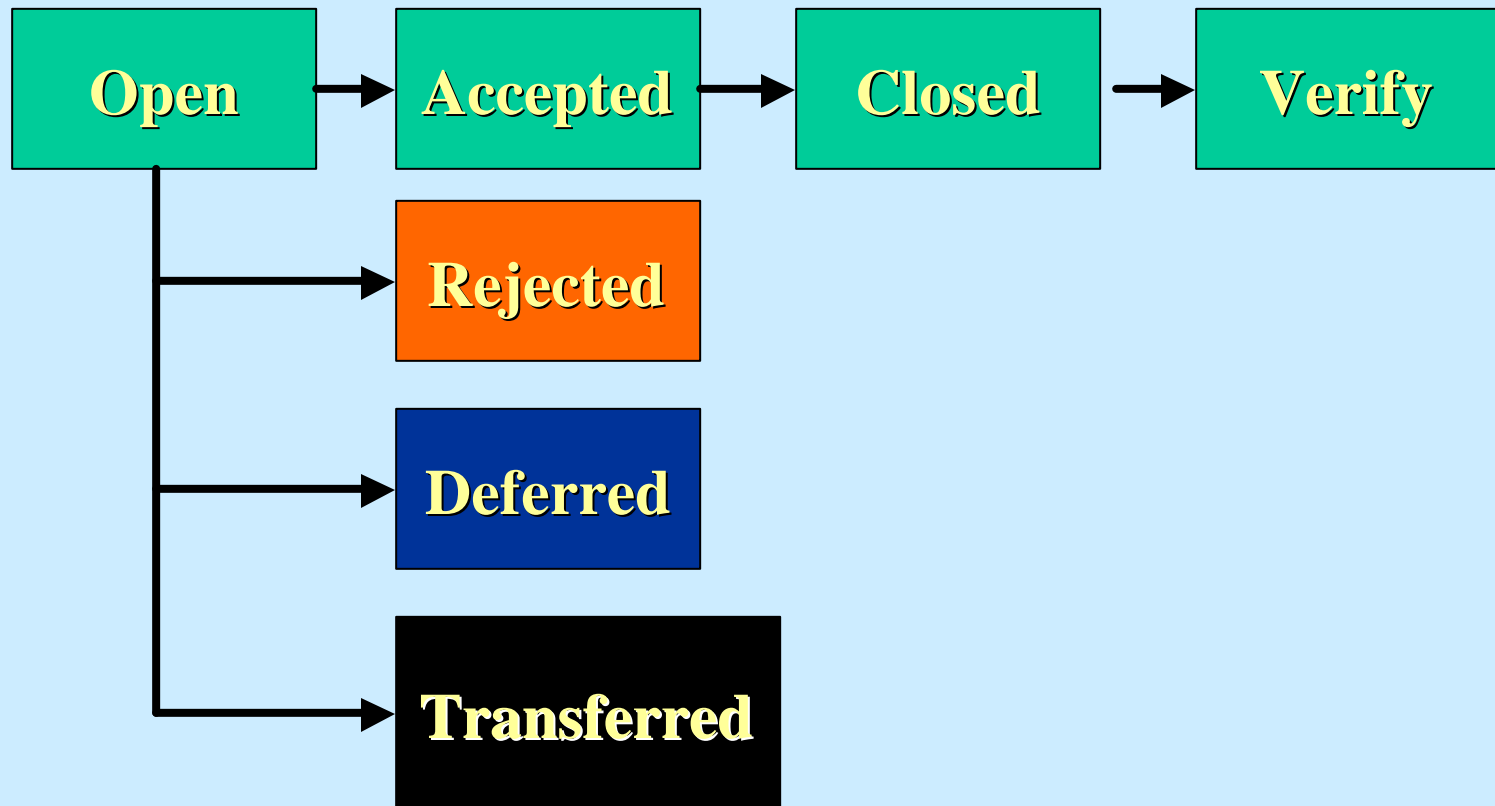

# SV-CC

- Progress made since the last face-to-face meeting (Contd.)
  - Webpages on current ISSUES.
  - Joe Daniel has joined as SV-CC LRM editor.

# SV-CC

- ISSUE Lifecycle

# SV-CC

- Current status - DirectC
  - DirectC is consuming most of our time so far.
  - There are 13 total ISSUES:
    - > 5 open
    - > 7 closed
    - > 1 duplicate.
  - No new ISSUE will be accepted (last date was 11/26).
  - Last date for proposal review - 12/17/02.

# SV-CC

- Current status - Assertion and Coverage APIs
  - Some initial discussions have taken place for assertion and coverage APIs.
  - Things have started ramping up.
  - Initial target dates for proposal reviews for these (12/17 and 12/24) are at risk.
